

NTI HCIA-AI GRADUATION PROJECT

PDF SUMMARY & QUIZ GENERATOR

AGENDA

INTRODUCTION

PROBLEM STATEMENT & SOLUTION

TECHNICAL ARCHITECTURE

TECHNICAL CHALLENGES & SOLUTIONS

FUTURE DEVELOPMENT

INTRO

The PDF Quiz & Summary Generator allows users to upload PDF documents and automatically generate:

- Detailed Summaries: Concise summaries of the PDF content with the option of manual input for more flexibility
- Interactive Quizzes: Multiple-choice questions with explanations based on document content

The application features a responsive UI with light/dark mode support and performance optimizations for efficient processing.

PROBLEM STATEMENT & SOLUTION

YOUSSEF BEDEIR

PROBLEM STATEMENT

Information Overload:

- 1- Students & Academic Audience
- 2- Research Papers
- 3- Boredom of Reading
- 4- Traditional Routine
- 5- Time Consuming

SOLUTION

Here we introduce Our Tool:

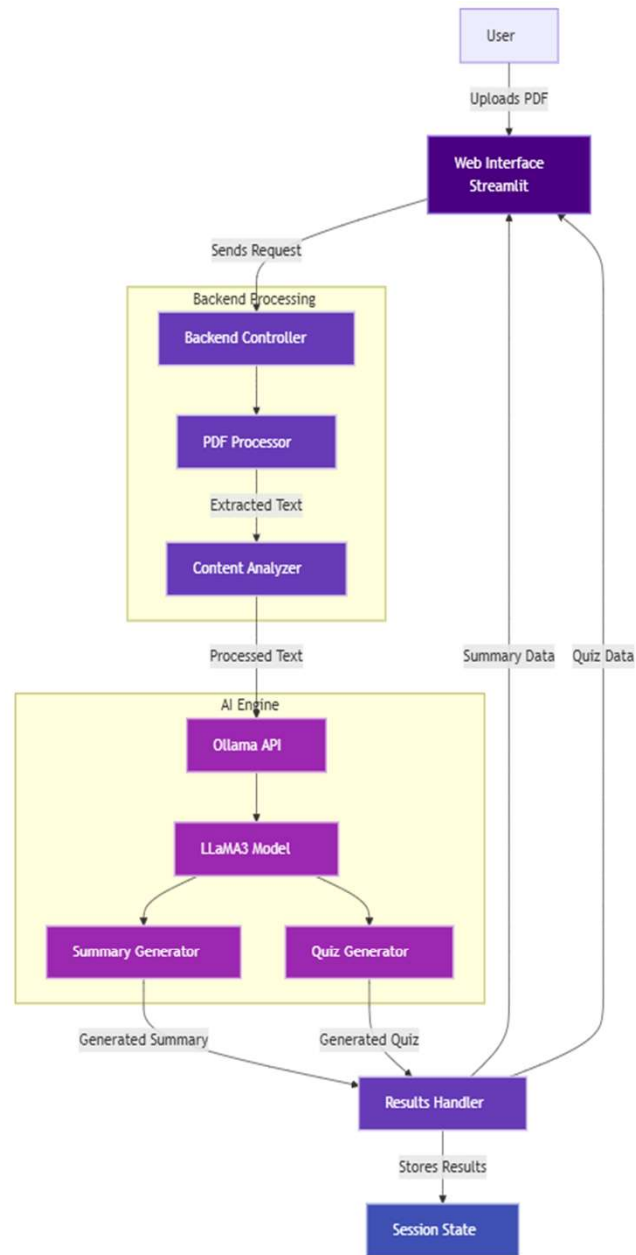

- AI-powered tool that processes any PDF document
- Automatically generates comprehensive summaries
- Creates interactive quizzes based on document content
- Built on LLaMA3 AI model via Ollama
- Web-based interface accessible to anyone

TECHNICAL ARCHITECTURE

AMR ELNASHAR

WHY OUR TOOL?

- Clean, modern Streamlit web interface
- Simple three-step process:
 - Upload PDF document
 - Select desired output (summary, quiz, or both)
- View and interact with results
- Dark/light mode toggle for user preference
- Interactive quiz interface with immediate feedback

TECHNICAL CHALLENGES & SOLUTIONS

MOHAMMAD ABDELHAY

CHALLENGES

1. Accurate content extraction from varied PDF formats
2. Generating relevant, accurate, well-structured summaries
3. Creating meaningful quiz questions
4. Performance with large documents
5. Maintaining state between user sessions

SOLUTIONS

1. Robust PDF parsing library with format detection
2. Custom prompt engineering for LLaMA3 model
3. Multi-stage question generation with validation
4. Chunked processing and parallel execution
5. Streamlit session state management

FUTURE DEVELOPMENT

AHMED AMMAR

FUTURE VISION

SHORT-TERM ENHANCEMENTS

- Support for additional file formats (DOCX, EPUB)
- Customizable summary length and quiz difficulty
- Export options for summaries and quizzes

MEDIUM-TERM FEATURES

- Multi-document comparison
- Specialized domains (medical, legal, technical)
- Custom quiz templates

LONG-TERM VISION

- LMS integration
- Collaborative study features
- Mobile application

ACKNOWLEDGMENTS

- **Technologies**

Streamlit, Ollama, LLaMA 3

- **Libraries**

PDF processing tools, Requests

- **Contributors**

This project was developed under the guidance of:

Eng. Ahmed Ali (Mentor)

- **Open Source**

- Available on [GitHub](#) for community contributions
